About Us

Established in 1979, Southwest Seal and Supply has grown to become one of the most predominant distributors of sealing, hydraulic hoses, fittings, couplings/connectors, gasketing and fluid control products in the Southwest. We offer a wide range of products including the best in selection, quality, and value added services. With 3 strategic locations (that include two ParkerStore retail outlets) in and around the Southwest/Rocky Mountain area, Southwest Seal is able to reach out to a multitude of locations throughout the region.

Southwest Seal and Supply has been serving the needs of a broad range of industries with countless applications spanning our long history. Our warehouses stock thousands of parts ready for same or next day shipment so we can accommodate original equipment manufacturers (OEMs) to maintenance and repair operations (MROs) and everyone in between.

At Southwest Seal, quality is the responsibility of each and every one of our employees. We are fully committed to providing products and services that consistently exceed our customers' expectations and meeting regulatory requirements. We will deliver the highest quality products on time and achieve total customer satisfaction through continual quality and process improvement. Please feel free to contact us at any of our locations for all of your sealing requirements.
